

DIVE CENTRE KREIDESSEE HEMMOOR

You should know!

The Dive Centre

Our award-winning diving centre Kreidesee is located directly on the lake, on the grounds of the holiday park and is open 365 days a year. Our opening hours are:

January 09.00 am - 15.30 pm
February 09.00 am - 16.30 pm
March 09.00 am - 17.00 pm
April 09.00 am - 18.00 pm
May - September 09.00 am - 19.00 pm
October 09.00 am - 18.00 pm
November 09.00 am - 17.00 pm
December 09.00 am - 16.00 pm

From April to October it will be open from 08.00 a.m. **at the weekend**.

You can register at the dive centre for diving, camping or U-boating and receive everything you need for diving in the Kreidesee. Compressed air up to 300 bars, oxygen up to 100%, helium, argon, rental equipment, handcart, spare parts, tools and many good tips. Rounding off the programme are a kiosk for snacks in between, a snack bar at the weekend or a bookable training room for 20 people in the main building. Of course, you can also complete professional diving certificates from beginners to instructors or book accompanied dives. Our sanitary rooms and an entrance are handicapped accessible. A "pre-registration" is not required, but please remember to bring your brevet, logbook and medical certificate with you for registration. This means you must register for diving upon arrival! Afterwards you may dive the lake independently as a buddy team, if you both have at least Bronze, OWD or an equivalent diving license.

To avoid waiting times during the season, we operate one of the largest filling stations in Europe. Our 300 bar compressors permanently fill a 480,000-litre storage unit from which up to 10 tanks can be filled simultaneously in just 5 minutes. This makes it possible to fill more than 500 bottles a day. In addition, a refrigerant dryer with water separation, a fully automatic dewatering system, several 2.3 l filters and an air monitoring unit are installed to guarantee air quality well under the DIN EN 12011 legal requirements. Outside the opening hours you can use a self-filling facility. We produce technical gases with a mixing system that can produce nitrox and trimix mixtures of up to 40%, which are then compressed directly with an oxygen-compatible compressor. Gases with an oxygen content between 40-100% are mixed quite conventionally using the "partial pressure method".

LIVING & ACCOMMODATION

Several **apartments** are in the main house at the entrance, about 350m from the dive centre. Equipped for 2-6 persons, they are arranged over three floors. A common drying room is located on each floor and a training room for 20 persons can also be booked in the house. There is a parking area in front of the house. The check-in / check-out takes place directly in the house. The Scandinavian style cottages are specially designed for divers and offer uncompromising luxury. They are in a separate holiday home area, approx. 100m from the dive centre and entrance 1. There are different models available for 4-6 persons, some with sauna and/or heated drying room. Checking in and out also takes place in the main building, where the houses can also be booked directly via 04771-68 88 68 or www.kreidesee.de

You can arrive and depart at our **campsite** 24 hours a day and choose your own place. The pitches are not divided into lots and are variable in size. Reservations are not possible and first come, first served, can choose the most beautiful place. The campsite is only 100m from the Kreidensee lake and 10m from the diving centre. All pitches are equipped with electricity (for a fee) and water, as well as drying poles and a playground. In the sanitary building there are toilets, free showers, washing machines and dryers, kitchenette, disabled toilet and a baby changing couch. The registration takes place on arrival directly in the diving base.

In addition, **rental caravans** with a fixed awning are available for max. 4 persons. They have a cooking facility, refrigerator, coffee machine, crockery, pots and pans, as well as electric heating. Bedding, pillow, blanket or sleeping bag must be brought along. Final cleaning and electricity are included. Bookings only by phone via the dive centre 0049 4771 - 79 21.

Apartment from incl. Electricity/ER/per Night	50,00 €
Cottage from incl. Electricity/ER/per Night	74,00 €

The most important check-in points at the diving centre Kreidensee:

1. Doctor's certificate

Do I have a **medical certificate**? It is sufficient to have normal proof from the family doctor that he considers you suitable for diving. We do not accept the international self-disclosure! The doctor's stamp in your diver's passport is also enough!

A Diving accident insurance **is not compulsory** with us, BUT in the event of an accident, costs of up to 15,000 EURO, can be expected and then charged to you! Even if a stranger initiates the rescue chain for you, even if you may not need it, you are in a legal obligation to pay! Here you can find reasonable online offers!

2. Second Regulator

Did you **check your diving equipment**? We require a second regulator. Obviously, you don't just have to carry it with you, but you also have to be able to use it! Every diver/student must be fully equipped! You can order rental equipment one week in advance by phone!

During the summer months you can dive most of the dive spots with a Semidry without any problems, otherwise a dry suit would be recommendable especially for deep dives!

3. Check in to the Dive Centre

To register at the dive centre you should have your **brevet card** and your **medical certificate** with you. In the event of a great turnout, we will rely on your truthful information when registering and will only check it on a random basis. You can't go in the water with an expired certificate!

4. Payment

Due to the high number of divers we invoice all services immediately **in cash!** I.e. on arrival and not at the end. We do **not accept card payments!** Therefore, you should bring enough cash € with you as a precaution. In Hemmoor there are two banks with ATMs!

5. No Solo Diving

Solo diving is not allowed! Diving buddies can be found in advance via our buddy exchange. If you arrive here on the spur of the moment, you can of course also ask divers on-site whether you can join them! We cannot spontaneously provide you with a personal guide for your dive!

6. Briefing through us

Anyone who visits us for the first time and arrives at the weekend cannot expect a "detailed briefing" due to the high number of divers. Therefore, we recommend our new customers to inform themselves in advance on the Internet or to join experienced Hemmoor divers. During the week there is nothing to stop a detailed briefing!

Further Questions?

Please do not contact us via mail or Facebook!

We prefer contact via Phone: 0049 4771 7921.

We speak English and German
