

DIVE RULES

TECHNICAL DIVING

Dive Center Kreidesee GmbH & Co. KG Cuxhavener Str. 1 21745 Hemmoor
Tel. 04771-7921 from 09.00 Hours www.kreideseetaucher.de Booth: 01/18

- 1. Technical diving with air, trimix diving and rebreather diving must be indicated on registration. The diving rules for recreational diving also apply here, if these do not contradict each other.**
- 2. The guidelines of the recognized technical training organization apply, unless they are restricted by rules of the Dive Center Kreidesee.**
- 3. The oxygen partial pressure of the breathing gas may not exceed 1.4 bar during the working phase of the dive and 1.6 bar during the Decompression phase!**
- 4. The maximum diving depth with air is 45 meters!
Solo dives are strictly forbidden.**
- 5. For dives with Trimix, the maximum narcosis depth is 30 metres.**
- 6. As a DI I'm allowed to dive with max. two students at the same time.
For training dives below 50m, the training relationship depends on the respective standards of the association.**
- 7. An appropriate certification, proof of a valid diving accident insurance and the diving plan must be submitted on request.**
- 8. Rebreather diving is only permitted with a manufacturer's or association's training certificate related to the equipment.**
- 9. I can use a Scooter if I can prove at least 100 dives.
Driving at the WS, as well as with visibility under 10m, is forbidden.**
- 10. The Dive Center Kreidesee reserves the right to exclude divers from technical diving, however, regardless of the diving permit in the recreational diving area.**
- 11. With a not recognized training organization I have to prove my qualification with the "registration form technical diving".**
- 12. I will be banned from diving if I do not register before diving, if I initiate the rescue chain through negligent conduct, or if I violate these diving rules.**
- 13. With my signature on the registration form I unconditionally accept all rules valid here.**
